

# Emmaton Exceedances

- Number of days Emmaton standard is active during WY1976 – 1991: 2192 days
- Table below shows number of days with modeled exceedance (expressed as a percentage of days when Emmaton standard is active)

|                          | BDCP |         |        | H3_LLT with compliance at Emmaton |
|--------------------------|------|---------|--------|-----------------------------------|
|                          | EX   | NAA_LLT | H3_LLT |                                   |
| with daily patterning    | 10%  | 14%     | 28%    | 16%                               |
| without daily patterning | 7%   | 13%     | 28%    | 15%                               |
